There is nothing near in the lecture. Why dian't Cardinal Gibbons have the nerve to tell him that all this had better been said many times before? This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more -it controls the inflammation, quiets the fever, soothes, heals. Ask your doctor about this.

Dining Late and Long. In Sir Algernon West's early days society often dined late and long, and the late Lord Clanwilliam once told him of one occasion when he dined at a friend's villa near Putney and the

meal did not begin until eight o'clock. When they at last rose from the table and went to their rooms, Lord Clanwilliam flung open his window and saw the haymakers coming into the field. "I wonder," he thought, "what hour they begin work," and on consulting his watch he found it was 8:30. The haymakers were returning to work from their breakfast.-Tit-

#### TO ABOLISH CONVICT CONTRACT SYSTEM.

Governor Folk is now at work on his message to the Legislature, in which he will make several recommendations, among the more striking of which will be a plan for abolishing the contract avalent of working enwhere, As instituted some threweeks ago in The Republic, the DENTIST. Covernor will recommend that he place of the contract system being continued indefinitely, that it beabolished when the operant contracts expire and that in the future the able-bedied convicts be employed in the manufacture of wearing apparel and other articles for the charity institutions of the State.

Must of the contracts, will, expirin about a year, so the State will be afforded ample time for the charges which in direct money receipts will mean a very large sum animally. A large appropriation will have to be made directly from the revenue fund for support of the prison.

This, it they error Folk's ideas arcarried out, will come back indirectly. There were planks in all the political platforms of this State last fall demanding the abolition of the contract system, so it seems reason. DHYSICIAN AND SURGEON ably certain that a change of some kind will be made and that the system itself will have to go, no matter what the consequences may be,

Organized infor is so bitter against this system that no party now dares to stand for it.

It was said of the late Senator Allison that he would walk across the keyboard of a piano or a crinkly tin roof without making a sound. Pshaw, that may be nothing to the passy footedness with which the ATTORNEY AT LAW, friendly tariff revisionists may ne gotiate that proposition. The ear drum of the most sensitive business interest may not record a vibration. Wall Street Journal.
